

ELCWM Series Corridor System

Interior Joints (Wall)

Designed for drywall corner applications, this Elastomeric Corridor Corner System limits the sight line of the expansion joint by using a drywall bead. The system is mounted to the outside of the joint opening with a finished tape and mud process, while maintaining the elegance of exposed aluminum corner plate. The Santoprene seal comes in four colors to match your surroundings.

FEATURES

COMPLEMENTARY SEAL COLORS Available in four elastomeric seal color options: beige, white, gray or black.

QUICKER INSTALLATION Reduce installation time and labor costs with fast and easy installation.

CONTINUOUS SIGHT LINE This system can be used on walls, ceilings and corners to provide seamless and continuous aesthetics.
